REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest the combination that would teach a sabot insert made of a material having a longitudinal modulus of elasticity that is greater than or equal to 100 Giga Pascals and an elastic limit greater than or equal to 900 Mega Pascals. Wallow et al. (US 4,702,172) is the best available prior art (as previously applied against the originally filed claim 1) but its sabot insert is not made of a material having the properties as claimed in amended claim 1 of the instant application.
2. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).
3. Previously withdrawn Claims 9-13 have been rejoined at allowance.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James S. Bergin whose telephone number is 571-272-6872. The examiner can normally be reached on Monday - Wednesday and Friday, 8.30 - 5.30.
